

PUT A FEATHER

IN YOUR CAP

VERHOEF'S

TECHNICAL

TRAINING

EMPORIUM

WORLD-RENOWNED

INSTRUCTOR-LED

FOR IT PROFESSIONALS

A VERITABLE FEAST OF

TECHNICAL DELIGHTS

Welcome to the wonderful world of Verhoef's training emporium!

For over 25 years Verhoef have been delivering "Technical Training for IT Professionals" throughout the world. Our UK training centre was established in the beautiful World Heritage City of Bath in 1993. From there we deliver training throughout the UK, Europe, the Middle East and beyond, both on-site and on-line via the internet.

With a **CORNUCOPIA OF COURSES** for IT professionals from all disciplines, you're sure to find the perfect training at Verhoef's Emporium!

**100'S OF COURSES IN
100'S OF SUBJECTS!**

WE SUPPORT

OPERATING SYSTEMS: IBM z/OS, IBM i, UNIX and Linux, Fujitsu VME and Windows.

MIDDLEWARE: WebSphere, MQ, IIB, ACE and Cloud Technologies.

DATABASES: Big Data, DB2, IMS, MySQL, NoSQL, Oracle, SQL Server and Business Intelligence

DEVELOPMENT LIFECYCLE: Analysis and Design, Agile, Programming and Testing. Stacks.

PROGRAMMING LANGUAGES: Java, C, Visual Studio, Python, Web Development, Mobile Development, System z and more.

PROJECT AND PROGRAMME MANAGEMENT: PRINCE2, MSP, MS Project and DOORS.

AUDIT AND SECURITY: Both Practice and Technology.

We are an independent technical training establishment that cares about personal service:

- **No automated telephone systems** – A real live human answers your call.
- **No hard sales techniques** – We don't like it so why should you?
- **Unrivalled experience from our office team**
- **Small class sizes** – As little as one delegate means we'll usually run the class, so you won't be cancelled and our public class size is 8 maximum.
- **Total support** – Speak to an instructor before booking and our lifetime post-course support is guaranteed.

Verhoef
TRAINING

AT YOUR
SERVICE
SINCE 1993

VIRTUAL VERHOEF

Our live web-based courses ensure the same top quality instruction that Verhoef is famous for, but without the need for any travel.

Sessions are conducted with a real time instructor using high quality web-based conferencing tools. We provide access to the lab environments too. You just need a PC and headset. All this from the same instructors that you have come to know and trust throughout the years. Web-based learning also works well when combined with instructor-led training as part of a blended learning package. It's ideal for corporations with multiple locations, even overseas.

Any of our classes can be delivered as web-based sessions and prices can be surprisingly low! Get in touch to find out how Virtual Verhoef can work for you, please call us on

01225 339705 or email info@verhoef-training.co.uk

UNIX & Linux

VIRTUALISATION & CLOUD

We are also a PearsonVUE test centre.

HIGH PRAISE

FROM OUR

ESTEEMED CLIENTS

"Best course I've been on. The first Verhoef course I went on wasn't a fluke. Glad I came back. I don't see the point in looking at any other provider in future."

Andy Steele, z/OS Systems Programming Introduction, Scottish and Southern Energy

"No other class will ever come close to the level of professionalism, knowledge and attention to detail."

Simon Brown, Dorset County Hospital Foundation Trust

"Excellent, best course I've been on! Phil was great at explaining things simply and could also answer general questions about usage to put things into context."

Anna Baik, Oracle SQL, Virgin Media

"Verhoef supplied the best notes/manual that I've ever had in 20 years of IT."
